DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on April 3, 2006, has been entered.

Claim Objections

2. Claim 18 is objected to because of the following informalities: in lines 11-12, the claim recites the limitation "an intermediate member rotatably securing the pivotable member to the die." Later, in lines 19-20, the claim recites the limitation "wherein the pivotable member cooperates with at least one of the punch and the die ..." Applicant has amended the claims to claim the embodiment shown in Figure 2. As shown in Figure 2a, e.g., the intermediate member (25) secures the pivotable member (20) with respect to the base of the die. Since, the former limitation requires the intermediate member to secure the pivotable member with respect to the die, then the pivotable member can only cooperate with the die. Thus, the latter limitation should be amended to recite "wherein the pivotable member cooperates with ~~at least one of the punch and~~ the die ..."

Art Unit: 3726

3. Claim 18 is objected to because of the following informalities: claim 18, lines 11-12, the claim recites the limitation, "an intermediate member rotatably securing the pivotable member to the die." Applicant has amended the claims to claim the embodiment shown in Figure 2. As shown in Figure 2a, e.g., the intermediate member (25) secures the pivotable member (20) with respect to the base of the die, not actually "to the die." Thus, the limitation in claim 18 should be amended to recite "an intermediate member rotatably securing the pivotable member with respect to the die."

4. Claims 29-30, and 43 objected to under 37 CFR 1.75(c), as being of improper dependent form for failing to further limit the subject matter of a previous claim. These claims depend from previously canceled claims. Applicant is required to cancel the claim(s), or amend the claim(s) to place the claim(s) in proper dependent form, or rewrite the claim(s) in independent form.

5. Applicant is requested to review the claims again and make changes as necessary due to the amendment.

Allowable Subject Matter

6. Claims 18, 24-28 (29-30), 31, and 37-42 (43) are allowed.
7. Applicant's amendment and arguments in support thereof have been found persuasive. Applicant has amended the claims to recite the embodiment shown in Figure 2. See claim 18, lines 13-14, "a jack fixedly mounted at a first end to the intermediate member and pivotably secured at a second end to the pivotable member;" & claim 31, lines 16-17, "actuating a jack fixedly mounted at a first end to the to the intermediate member and pivotably secured at a second end to the pivotable member."

Conclusion

8. This application is in condition for allowance except for the following formal matters discussed above.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
